

For stomatitis and sore throat

MADE IN JAPAN

トラフル[®]クイックショット[®]

Traful Quick Shot

Anti-inflammatory spray for oral cavity

Class 3 OTC medicine

Indications

Stomatitis,
Throat pain, sore throat, throat swelling, throat discomfort and hoarseness caused by inflammation of the throat.

Dosage and Administration

Several times a day, spray proper amount to the affected area.

<Precautions related to Dosage and Administration>

- (1) As the use of this product while breathing in may allow medicinal liquid to enter the bronchial tubes or lungs, utter a sound while spraying if the back of throat is targeted.
- (2) Keep the nozzle away from oral cavity while use.
- (3) Follow the Dosage and Administration strictly.
- (4) Use for children should be supervised by guardians.
- (5) Prevent the mist of spray from entering into the eyes. If it happens, rinse the eyes immediately with water or lukewarm water. If symptoms are severe, see an ophthalmologist.

[How to use the container]

After removing the cap, point the nozzle toward the affected area and pump to spray.
When using for the first time, pump 4 or 5 times until the medicinal liquid comes out.
